

THE WORLD'S FINEST LUBRICANTS

THE UNIQUE DIFFERENCE

For over 40 years Lubegard® has been a world leader in the research, development and manufacturing of patented high-performance lubricants and related products.

WHALE OIL REPLACEMENT **WAS NEEDED:** The Endangered Species Act of 1972 outlawed the killing of whales and the use of whale oil in lubricants.

ears ago, sperm whale oil was used as an additive in virtually all lubricants because of its exceptional lubricity and heat resistance. Sperm whale oil was so effective in automatic transmission fluid that the fluid was rarely changed. Over 30 million pounds of sperm whale oil was used each year in lubricants.

In 1972, the Endangered Species Act outlawed the killing of whales and the use of its oil. With no suitable replacement available, transmission failures skyrocketed from just under 1 million per year to over 8 million by 1975.

International Lubricants, Inc. (ILI) in conjunction with the late Dr. Philip Landis, a distinguished research chemist who headed the Mobil Oil Applied Research Group, developed and patented the first and only high-temperature sperm whale oil replacement using environmentally-friendly renewable resources, called Synthetic Liquid Wax Ester (LXE*) Technology.

In terms of molecular structure, LXE® is closely related and performs similarly to sperm whale oil. However, this unique synthetic technology, found only in Lubegard products, is so heat stable that it is proven to outperform sperm whale oil additives.

International Lubricants, Inc. has been a pioneer in synthetic proprietary lubricant technologies including LXE°, Synergol°, Glossamer®, Erucichem®, and many more. While LXE technology is exclusively used only in Lubegard products, ILI manufactures and distributes other lubricant technologies for aerospace, marine, industrial, agricultural, skin care, household, and consumer packaged goods industries.

OUR PARTS, OUR SERVICE, OUR FLUIDS.

WE ARE STELLAR

One stop shopping for all transmission parts and fluids

SINCE 1990, Stellar Automotive Group has been committed to finding customers the best parts.

Our direct relationships

with top OE and aftermarket parts manufacturers

throughout

the world allow us

to offer more options. In house development work allows us to create products in response to customer inquiries. We regularly customize kits to meet customer's specifications.

STELLAR OFFERS:

- > Bushings & **Bushing Kits**
- > Hard Parts
- > Solenoids & Sensors
- > Bands & Sprags
- > Washer & Washer Kits
- > Sealing Rings & Ring Kits

Synthetic Automatic Transmission Fluid Protectant

The #1 used and trusted transmission protectant in the transmission industry and the only product of its kind to be used, endorsed, designated, and approved by multiple major automobile manufacturers (OEMs).

 For use with any ATF, except Ford
Type F and CVT and DCT
applications.

- Prevents overheating and reduces operating temperatures
- Extends fluid life
- Reduces ATF foaming and oxidation
- Eliminates clutch chatter and torque converter shudder
- Protects against wear
- Reduces slippage

- Keeps valve body components from sticking
- Does not contain harmful chemicals like zinc (ZDDP), chlorinated paraffins, Teflon*, solvents or seal swelling agents
- Protects seals and helps restore older seals to a "like-new" condition without adverse side effects
- Perfect for high-mileage applications

Part #	Unit Size	Unit Weight	Case Qty	Cases per/Pallet	UPC Code
60902	10 oz	0.70 lb	12	150	0 83137 60902 5
50902	32 oz	2.10 lb	6	125	0 83137 50902 8

PLATINUM® Automatic Transmission Fluid Protectant

Ideal for 6, 8, & 10 speed transmissions experiencing torque converter shudder and shifting issues. A premium ATF additive that prolongs fluid and component life by providing superior anti-wear protection. OEM fluid alternative that can be used in place of any application that calls for 60902, 61910, or 62005

- 6-10-speed transmission shudder solution – See QR code for details
- Eliminates the need for multiple OEM fluids
- For use with any ATF, except Ford Type F and CVT applications
- Contains the same benefits as OEM endorsed LUBEGARD ATF Protectant (#60902)
- Synergol* TMS is a technology that dramatically improves shift quality and tightens the shift cycle without degrading the torque carrying capacity of the fluid
- Compatible in all DCT applications

Enhances proper base fluids to perform like;

- Acura/Honda DW-1 & Z-1
- AW-1
- Hyundai/Kia/Mitsubishi SP-III & SP-VI, Kia Red
- Mercon V, SP, LV & Dexron HP
- Mopar ATF+4
- Mopar ZF 8 & 9 speed
- T-IV (JWS 3309)
- Toyota WS
- · Audi, BMW, Mercedes and many more!

Part #	Unit Size	Unit Weight	Case Qty	Cases per/Pallet	UPC Code
63010	10 oz	0.65 lb	12	150	0 83137 63010 4

63032	32 oz	2.10 lb	6	125	0 83137 63032 6

Highly Friction Modified ATF Supplement

The original ATF friction modifier used to enhance a high viscosity (Dex/Merc), or low viscosity (Dex VI) to perform like a highly friction modified fluid such as ATF+4, Honda DW-1, SP III, and Toyota WS.

- Eliminates the need for multiple OEM fluids
- The #1 tool used by professionals to adjust the frictional characteristics of an ATF to operate at its optimum performance
- Recommended for use in Ford AODE and 4R70W transmissions with shudder problems
- Contains same benefits as the OEM endorsed LUBEGARD ATF Protectant (#60902)

Enhances proper base fluids to perform like:

- Honda Genuine, Z-1, DW-1
- Hyundai/Kia/Mitsubishi SP II, SP III & SP IV
- Toyota Type T-IV and WS
- Mopar ATF+4, AS 68RC
- Motorcraft XT-8-QAW
- JWS 3309
- Volvo 1161540-8
- ...and many more

Part #	Unit Size	Unit Weight	Case Qty	Cases per/Pallet	UPC Code
61910	10 oz	0.70 lb	12	150	0 83137 61910 9

ATF Supplement for Ford® Applications

Enhances Dex/Merc ATF to perform like Mercon® V ATF & corrects additive depletion and shifting problems for all Ford fluids *except Ford Type F ATF

- Contains patented Synergol* TMS Technology, which tightens the shift cycle without losing the friction modification at lockup (eliminates shudder).
- Contains same benefits as OEM endorsed LUBEGARD ATF Protectant (#60902)
- Mercon V is recommended for all Ford transmissions that originally required Mercon for better anti-oxidation, anti-wear and anti-shudder properties as per Ford.

Enhances DEXRON°/MERCON° fluids to perform like;

- MERCON V* ATF, found in many of these vehicles:
- Ford
- Lincoln
- Mercury
- Mazda

Part #	Unit Size	Unit Weight	Case Qty	Cases per/Pallet	UPC Code
62005	10 oz	0.70 lb	12	150	0 83137 62005 1

CVT Recharge & Protect®

CVT Recharge & Protect™ is specifically formulated for continuously variable transmissions to revitalize worn-out fluid by restoring additive components essential to optimal performance. It reduces noise and enhances anti-shudder performance for smoother operation.

- For use in all CVTs including eCVTs
- Corrects and prevents problems caused by worn-out, degraded fluid
- Reduces noise
- Protects belt/chain, pulleys and other components from excessive wear
- · Provides anti-shudder durability
- Maintains belt traction

- Lubricates and protects seals without shrinking or swelling them
- · Increases heat stability of the fluid

Part #	Unit Size	Unit Weight	Case Qty	Cases per/Pallet	UPC Code
67010	10 oz	0.70 lb	12	150	0 83137 67010 0

COMPLETE™ Full Synthetic Automatic Transmission Fluid

Engineered to meet OEM requirements where lower viscosity ATF is required including highly friction modified ATFs such as Toyota WS, Honda DW-1, Dexron HP, etc.

Fluids requiring a reduced viscosity ATF like LUBEGARD COMPLETE Full Synthetic ATF are suitable for use in:

- Acura/Honda DW-1
- Dexron HP/Mobil LV ATF HP
- Dexron VI
- Lifeguard 6
- Mopar ZF 8 & 9 Speed Fluid
- Mercon LV & SP
- Nissan Matic J, K & S
- Toyota WS
- Land Rover, Lexus, Volkswagen, Volvo and many more!

- World class replacement for synthetic low viscosity ATF
- Formulated to meet OEM requirements for shear stability, long term frictional stability, superior shift quality, and anti-shudder properties
- Backwards compatible to replace DEXRON* fluids in older automatic transmissions that call for DEXRON* and Honda applications that call for Z-1* ATF

COMPLETE™ CVT Fluid

Eliminates the need to stock various OEM CVT fluids with this multi-vehicle formula. For use in any type of continuously variable transmission

- including belt and chain types

- Provides longer anti-shudder performance
- Minimizes friction between belts and pulleys which protects against fatigue damage
- Maintains the performance of a continuously variable transmission by providing excellent wear protection
- Imparts both shear and oxidation stability to the fluid
- Maintains fluid flow even at frigid temperatures for superior cold weather performance
- Provides traction to belt and chains

COMPLETE™ Multi-Vehicle Dual Clutch Transmission Fluid

Manufactured with the highest quality synthetic base oils and performance additives, our DCT fluid is designed to provide extreme pressure protection and improve shifting proficiency at all ambient temperatures.

- Service solution for over 99% of wet clutch applications
- Tested against OEM approved fluids and proven superior
- Infused with proprietary LXE which provides frictional durability, unrivaled shear stability, and superior wear protection
- Improves shifting proficiencies at all ambient temperatures
- Compatible with Pentosin FFL-2, FFL-3, FFL-4, FFL-8 & FFL Racing

Instant Shudder Fixx™

A concentrated friction modifier formulated specifically for eliminating torque converter shudder problems — instantly.

 The original shudder fix used by
transmission professionals to eliminate
shudder problems

- · Results are immediate, no waiting
- For use with any automatic transmission fluid.
- Not for use in Ford Type F, CVT, or DCT applications

Transmission Flush

For use with or without a flush machine to safely flush out old degraded fluid and unwanted by-products in automatic, CVT, DCT and standard transmissions.

 Safely removes 	varnish	deposits
------------------------------------	---------	----------

- Prepares transmission for new fluid
- Cleans internal transmission components
- · Contains rust and corrosion inhibitors
- Does not contain harmful solvents
- Safe for all seals
- Helps unclog fluid passages
- Can easily be disposed in waste oil
- For use with or without flush machine

Kooler Kleen™ Transmission Cooler Flush with 2-in-1 fitting

Kooler Kleen is used, endorsed, designated and approved by multiple OEM's to safely flush contaminants from the transmission cooler and lines to prevent them from entering newly installed transmissions.

 Prevents contamination 	of
new or rebuilt units	

- Removes grease, dirt, sludge, grime and metal shavings
- No water/soapy residue to contaminate new automatic transmission fluid
- Ideal for those that do not have a dedicated flushing machine
- Essential for installers and others that ship out transmissions
- Does not contain chlorinated solvents
- Formulated to not harm seals or degrade new transmission fluid
- Prevents costly returns

Rustgard

LUBEGARD® Rustgard™
Rust & Corrosion Preventive Oil
is formulated to displace moisture
and protect metal surfaces
from humidity that could cause
rust and corrosion whether in use
or storage.

- Protects parts, tools, machinery & equipment from rust and corrosion
- Displaces moisture and protects from humidity
- Ideal for storage of parts, tools, machinery & equipment
- Will not clog filters (Wax-free formula)
- For spraying, dipping, wiping, & brushing (bulk sizes available)
- Provides a protective barrier
- Prevents rust & corrosion on machined surfaces and assemblies
- · Perfect for newly sharpened edges
- Commercial grade formula
- Compatible with all motor oils and transmission fluids

Assemblee Goo™ Firm Tack (Green) or Light Tack (Blue)

LUBEGARD® Assemblee Goo is the best-selling assembly lubricant for virtually any assembly application (including engines). Now formulated with LXE-XPTM it is the only assembly gel that offers robust anti-wear protection.

Green (Firm Tack) Blue (Light Tack)

- Dyed green or blue to prevent misdiagnosing leaks
- Will not melt at shop temperatures
- Not harmful with prolonged skin contact
- Will not clog filters
- Dissolves quickly at operating temperatures
- Compatible with all transmission fluids
- Contains NEW anti-wear LXE-XP™ Technology and a rust inhibitor

Aluminum Protectant

Aluminum Protectant reduces aluminum-on-aluminum and steel-on-aluminum wear by adding anti-wear protection which is not currently present in today's transmission fluids.

- Prolongs the life of aluminum parts and reduces warranty returns
- Reduces aluminum wear by an average of 35% when in contact with steel or aluminum such as valve bodies, servo bores, pistons, etc
- Improves anti-wear protection of steel-on-steel contact
- Helps to prevent torque converter shudder by reducing valve body T/C circuit wear
- Restores anti-wear properties to used and new fluids
- Safe for yellow metals, including brass, bronze & copper
- Can also be used in conjunction with other LUBEGARD protectants.

COMPLETE™ Synthetic Power Steering Fluid

Engineered with a proprietary additive package developed by ILI that includes 2 patented technologies: Synergol® TMS and LXE®. Together these technologies provide the most advanced antiwear protection available.

- The service solution for ALL European, North American and Asian vehicles except for Honda/Acura.
- Compatible in electric hydraulic power steering systems (EHPS) including Nissan E-PSF, Mopar Electric Steering Pump Fluid, etc.
- Compatible with Pentosin CHF 202 & 11S Hydraulic Fluid for power steering applications.
- Significantly reduces friction, provides more potent rust and corrosion protection, and extends the life of the power steering system

- Reduces whines and stiffness
- Effective in a wider range of temperatures, eliminating cold starts and overheating
- Protects seals and hoses reducing the risk of power steering leaks

COMPLETE™ Synthetic Power Steering Fluid for Honda & Acura

Engineered specifically for 2007 and up applications that specifically call for a fully synthetic power steering fluid. It is also backwards compatible with older Honda & Acura vehicles.

- Service solution for all Honda/Acura vehicles
- Lubricates and reduces wear in the pump
- Outperforms OEM fluid in anti-wear protection.
- Prevents rust on steel parts
- Protects and cleans the seals and hoses
- Flows properly in all temperatures
- Contains no seal swellers
- Backwards compatible with Honda & Acura vehicles manufactured before 2007
- Compatible with Ford XL-22 High Temperature PSF

24242	32 oz	2.10 lb	6	125	0 83137 24242 0

COMPLETE™ Power Steering Fluid with LXE® Technology

Premium power steering fluid for non-synthetic applications.

- Extends the life of the steering system
- Eliminates power steering noises and whines
- Eliminates rack and pinion steering stiffness
- Efficient in hot and cold weather
- Cleans and frees sticky turbines and pumps
- Provides excellent rust and corrosion protection
- Inhibits fluid foaming and oxidation
- Safe for seals and hoses

Power Steering Flush

For use with or without flush machines.

- Safely removes deposits and impurities
- Prepares the system for new fluid
- Seal friendly formula
- Deters internal power steering fluid leakage from developing
- Cleans, conditions and prepares the entire system for replacement of worn components

Part #	Unit Size	Unit Weight	Case Qty	Cases per/Pallet	UPC Code
95040	4 oz	0.30 lb	12	294	0 83137 95040 0

Power Steering Fluid Protectant

For use with all power steering fluids. Enhances any standard power steering fluid into a premium fluid.

- Eliminates power steering noises and whines
- Improves steering system performance
- Eliminates rack and pinion steering stiffness
- Compatible in electric hydraulic power steering systems (EHPS)
- Frees sticky turbines and pumps
- Extends system and fluid life

 Reduces wear, thus extending
the life of the power
steering system

- Increases responsiveness
- Prevents thermal and oxidative breakdown
- Safe for all seals and hoses

Seal Fixx™ Multi-System Stop Leak

20404

An industrial strength and cost effective stop leak that works quickly. This unique formula will lubricate and revitalize worn or dried out seals safely without causing harm to internal components.

Multi-System Stop Leak works in:

0.30 lb

- Engines even works on main seals
- Power Steering
- Automatic and Manual Transmissions
- Differentials
- Industrial and farming applications requiring hydraulic fluids
- Lubricates and revitalizes worn or dried out seals safely without causing harm to internal components
- Industrial strength and cost effective
- Compatible with conventional and synthetic transmission fluids, motor oils, power steering fluids, and automotive and industrial hydraulic fluids

Kool-It™ Supreme Coolant Treatment

Compatible with all types of antifreeze and coolant, Kool-It provides complete cooling system protection required for today's modern cars and trucks. Kool-It's unique chemical composition is very effective at preventing damage from electrolysis, corrosion, and pitting. The overwhelming majority of failures associated with aluminum radiators found in most newer vehicles are due to corrosion. This corrosion is a result of deficient chemical protection within the coolant.

- Compatible with all types of antifreeze/coolant
- Protects all metals from chemical electrolysis
- Provides unsurpassed cooling system corrosion protection
- Enhances heat transfer and reduces operating temperatures
- Prevents gels and deposits which lead to overheating
- Reduces water pump, impeller and intake manifold pitting
- Extends coolant life up to five years
- Nitrite-free formula

Kool-It[™] **Radiator Flush**

Safely removes deposits and other degradation by-products, preparing any radiator for new antifreeze/coolant. For use with or without a flush machine.

- Quickly and safely removes scum, oily residue, sediments, rust, deposits and other degradation products from the cooling system of any car or truck
- · Safe for all cooling systems including aluminum radiators
- Maximizes cooling system efficiency
- Contains corrosion inhibitors
- · Contains no acids
- Safe and easy to use
- · Requires no neutralizers

Kool-It™ Evaporator & Heater Foam Cleaner

Contaminated air conditioning and heater/evaporator cores can cause foul smelling, health threatening mold and mildew deposits. Kool-It's super foaming action removes and neutralizes contaminants that thrive in air conditioning and heating systems of cars, trucks, vans and RVs.

- Quick and easy
- Eliminates odors
- Improves air quality
- · Leaves a clean, fresh scent
- · Helps remove odors caused by inanimate contaminants
- No equipment or drilling required
- Lasts up to six months
- Safe for use in electric vehicles
- EV OEM approved
- · Super foaming action flushes out and neutralizes contaminants

Limited Slip Supplement

42851

A universal limited slip supplement that eliminates differential chatter. reduces temperatures, and extends clutch pack and equipment life in ANY limited slip differential.

- · Eliminates differential chatter and other noises, (squeals, groans, etc.)
- · Universally works in all makes and models with limited slip differentials including Ford, Chrysler, GM and Jeep
- Reduces differential temperatures
- Extends clutch pack and equipment life

0.34 lb

- Inhibits rust and corrosion
- · Safe for yellow metals
- Replaces OEM required friction modifiers

Gear Fluid Sunnlement	• Reduces drive train power loss	• L

Gear Fluid Supplement

For use in all manual transmissions, manual transaxles and final drives that require gear fluid.

For manual transmissions that require ATF, use LUBEGARD Synthetic Automatic Transmission Fluid Protectant (#60902).

- · Lowers temperature and extends fluid life
- Improves heat transfer
- Eliminates cold weather stiffness
- Improves all manual and synchromesh transmission shifting characteristics
- Reduces tooth drag and absorbs shock loads, improving the life of all gear units
- Lowers friction on bearings and gears with high wiping stresses, (especially hypoid gears)

0 83137 42851 0

- Minimizes oxidation and varnish deposits
- Suppresses lubricant foaming
- Safe for new MTF Fluids
- Increases power transfer, reduces energy consumption
- Decreases equipment operating and maintenance costs

Fuel System Booster

State-of-the-art fuel additive made with our premium PEA and Synergol® technologies, it is the first 3-in-1 product that provides total system clean-up, fuel lubricity, and fuel stabilization.

It also specifically treats DIG (direct injection) fuel systems in addition to the traditional intake-port delivery systems of today.

- Can be used in any type of engine; gasoline or diesel
- Contains a unique, proprietary polyether amine (PEA) detergent technology, the most effective chemistry for total fuel system cleanup that outperforms competitors
- Proprietary Synergol additive provides lubrication to fuel pumps and injectors
- Meets ASTM D-5500 10,000 mile BMW IVD test
- EPA/LAC, CARB, and TOP TIER[™] compliant
- Ideal for new DIG fuel systems
- Improves fuel economy and horsepower

	•	Stabilizes	fuel,	especially	during	storage
--	---	------------	-------	------------	--------	---------

- Cleans carburetor/fuel injectors in one tank
- Removes deposits from combustion chamber and intake valves
- One step process; just pour in the tank. Does not require aerosol
- Prevents hesitation, rough idle, and stalling
- Allows less expensive, lower octane fuel to be used
- Reduces emissions
- Reduces the rate at which ethanol emulsifies and oxidizes
- Inhibits corrosion that results from emulsified ethanol-containing fuel

Engine Oil Protectant for Turbocharged Engines

Exclusive formula with proprietary technologies reduces Low–Speed Pre–Ignition (LSPI) engine knock and prevents premature oil aging, providing long-term protection.

 For use in al 	l turbocharged	engines
-----------------------------------	----------------	---------

- Reduces low-speed engine knock
- Revitalizes worn-out engine oils
- Does not contain zinc which is harmful to catalytic converters
- Contains Moly known to reduce LSPI/engine knock
- Reduces wear on pistons, timing chains, head gaskets, bearings, etc.
- Does not contain calcium known to increase LSPI/engine knock
- Increases fuel economy due to reduced friction
- Reduces oil consumption/volatility
- Protects from cold starts
- · Reduces varnish and sludge
- Will not alter motor oil viscosity even in frigid weather conditions

30015 15 oz 1.8 lb 12 80 0 81317 30015 1	Part #	Unit Size	Unit Weight	Case Qty	Cases per/Pallet	UPC Code
	30015	15 oz	1.8 lb	12	80	0 81317 30015 1

BIO/TECH Engine Oil Protectant

This bio-synthetic formula is the only product of its kind that provides additional lubricity protection to any engine oil, plus eliminates harmful cold starts and reduces internal friction and wear.

- Optimizes engine horsepower and performance
- Eliminates lifter and other objectionable noise on startup, especially in cold weather
- Ensures smoother running engines
- Reduces hot engine oil temperatures
- Improves friction and wear performance over major brands of motor oil
- Blends with ALL motor oils currently produced
- Helps reduce smoking by restoring flexibility to valve stem seals for improved sealing, also providing outstanding upper cylinder lubricity as it frees up sticking rings
- Reduces engine oil consumption/ volatility
- Not for use in turbocharged engine

Part #	Unit Size	Unit Weight	Case Qty	Cases per/Pallet	UPC Code

Engine Flush

LUBEGARD Engine Flush is designed for use with or without a flush machine and will safely remove accumulated amounts of varnish, sludge, and by-products of combustion. LUBEGARD Engine Flush is a premium synthetic blend that contains special detergents and dispersants and NO harmful solvents that will damage seals & gaskets.

- Cleans gums, varnishes & deposits
- Properly prepares engine for fresh oil
- Frees sticky valves & lifters
- Improves oil circulation
- Does not contain harmful solvents
- Seal friendly formula

Part #	Unit Size	Unit Weight	Case Qty	Cases per/Pallet	UPC Code
95030	15 oz	1 lb	12	80	0 83137 95030 1

Premium Universal Lubricant

Originally formulated for professional transmission technicians, LUBEGARD® Universal Lubricant spray provides exceptional lubrication for the assembly of transmissions, engines, gear boxes, pumps, or any other general automotive use, but is also great for other general lubrication needs as well. Applications range from recreational uses to industrial, around the shop, or around the house!

- Specially designed for the Automotive Industry, but great for 1,000's of other general lubrication needs
- Contains bio-synthetic formula with superior cold flow properties
- Environmentally responsible, non-aerosol and non-flammable
- LXE* Technology has a natural polarity that strongly attaches to the metal surfaces providing superior lubrication preventing wear.
- User-friendly and won't irritate sensitive skin
- Non sticking formula repels dirt
- Does not evaporate
- No harsh odor
- Works under most extreme temperatures
- Coats and protects metal, rubber, plastics, etc.
- Excellent penetrant and protects against rust and corrosion

Part #	Unit Size	Unit Weight	Case Qty	Cases per/Pallet	UPC Code

Lubegard Flush & Protect Performance Packs are available for the transmission, engine, power steering, and radiator For use with or without a flush machine!

Synthetic ATF Protectant Flush & Protect Pack

Part #	Unit Size	Unit Weight	Case Qty	Cases per/Pallet	UPC Code
98602 (with Flush)	2/10 oz	1.40 lb	6	120	0 83137 98602 7

Platinum ATF Protectant Flush & Protect Pack

Part #	Unit Size	Unit Weight	Case Qty	Cases per/Pallet	UPC Code
98010 (with Flush)	2/10 oz	1.40 lb	6	120	0 83137 98010 0

Power Steering Flush and Protect Performance Pack

Part #	Unit Size	Unit Weight	Case Qty	Cases per/Pallet	UPC Code
98404	2/4 oz	0.65 lb	6	294	0 83137 98404 7

Engine Flush & Protect Pack

Part #	Unit Size	Unit Weight	Case Qty	Cases per/Pallet	UPC Code
98901	2/16 oz	2.40 lb	6	80	0 83137 98901 1

Kool-It™ Radiator Flush and Protect Performance Pack

Part #	Unit Size	Unit Weight	Case Qty	Cases per/Pallet	UPC Code	
98001	2/16 oz	2.40 lb	6	80	0 83137 98001 8	l a

Lubegard® Heavy Duty Fluids are engineered to enhance the performance of transmissions, power steering units, and gas and diesel engines in heavy duty fleet applications. These products are proven to protect and restore vehicles and equipment. They are manufactured with LUBEGARD's proprietary LXE® technology. LXE's negative polarity is attracted to the positive polarity of metals, creating a powerful single-layer bond that provides superior lubrication and anti-wear protection under extreme pressure. Combined with LXE's heat transfer properties, the results are more power, better fuel economy, smoother shifting, reduced component wear, and less downtime. The Heavy Duty Line comes in 4 formulas to protect and enhance the performance of each automotive system and will not void warranties.

Lubegard® Heavy Duty Engine Protectant for Gas and Diesel Engines

- Reduces oil and fuel consumption!
- Improves fuel economy by reducing friction up to 29%
- Extends oxidative stability 60% more than leading brand
- Increases part life by reducing wear on metal components up to 70%
- Extends oil life up to 30% by significantly reducing hot oil temperatures
- · Helps engines run smoother

30916 32 oz 2.26 lb 6 125 0 83137 30916 1	Part #	Unit Size	Unit Weight	Case Qty	Cases per/Pallet	UPC Code
	30916	32 oz	2.26 lb	6	120	0 83137 30916 1

Lubegard® Heavy Duty Coolant Treatment

- Enhances coolants in diesel engines
- Protects wet sleeve cylinder liners from cavitation erosion
- Prevents build up of scales and deposits that cause overheating
- Provides 100% protection from corrosion and electolysis
- Significantly extends life of water pump impellors and seals

Part #	Unit Size	Unit Weight	Case Qty	Cases per/Pallet	UPC Code
96430	32 oz	2.26 lb	6	125	0 83137 96430 8

Lubegard® Heavy Duty Gear Oil Protectant

- Enhances all gear oils used in manual transmissions, tranaxles, or final drives
- Extends oil and component life
- Increases horsepower
- Reduces friction and wear on gears and bearings
- Reduces tooth drag and absorbs shock loads
